DevOps Talks Conference (DOTC)

DevOps Talks Conference (DOTC) aims to attract leaders and engineers who are practicing DevOps in startups and leading-edge enterprise companies. World-class speakers from cutting-edge IT startups and enterprises such as CHEF, New Relic, Google Cloud, Rancher Labs, JFrog, Scalyr, CyberArk and Microsoft Azure present about DevOps, Cyber Security, Containers, Cloud, Serverless, SRE, Blockchain, ChatOps and other advanced high tech subjects and new technologies.

-  Explore the latest thinking, leverage from industry experts and world-class leaders
-  Learn about the latest practices and technology which will help build and maintain resilient software systems
-  Drive your DevOps transformation
-  Boost tech team performance with DevOps
-  See how your culture impacts your operations
-  Attend optional workshops

John Willis
Distinguished Researcher

I'M LOVING THE CONFERENCE WE ARE HAVING A GREAT TIME ITS KIND OF INTERESTING, BECAUSE I HANG OUT A LOT AROUND SILICON VALLEY AND YOU HEAR A LOT ABOUT CULTURE AND DEVOPS VERY OFTEN, AND YOU COME OVER.

Mark Angrish
CIO CommSec

THIS IS A GREAT CONFERENCE. AUSTRALIA IS LUCKY TO HAVE SOMETHING LIKE THIS.

Shlomi Ben Haim
Co-Founder and CEO

HAD THE PLEASURE IN DOING DEVOPS TALKS 2019 IN AUSTRALIA. THE COMBINATION OF THE RIGHT AUDIENCE AND GREAT CONTENT WAS SOMETHING YOU JUST COULDN'T MISS! MELBOURNE'S DEVOPS COMMUNITY, A BLENDED ENGINEERS AND MANAGERS CROWD, AND THE IMPRESSIVE SPEAKERS' LINE-UP MADE IT ONE OF THE BEST CONFERENCES I ATTENDED THIS YEAR. GREAT JOB IGOR AND TEAM, THANKS FOR THE OPPORTUNITY.

DELEGATES

Come, network and talk to people who might be already doing what you are just planning to do, it might help you avoid some mistakes. Even if you pick up one idea, avoid one mistake or learn one new thing it's worth investing your time and coming to the DevOps Talks Conference!

SPEAKERS

We will do deep dives into Terraform, Kubernetes, iterative metrics, dashboards, and monitoring for Cloud-Scale App, open source governance and compliance controls for AWS deployments. Our very international line-up of speakers will present the most interesting subjects of IT, High Tech and Emerging Tech.

SPONSORS

Sponsoring is a great opportunity for your company to build brand awareness within the DevOps space and support the DevOps community.
